House No. 364 Sector A-II Township
Lahore, Pakistan

Courteous and enthusiastic, I am interested in IT and everything in its orbit. I recently began to be fascinated by web programming, e.g. developing web-apps and building websites. Invited to join my graduation institute as a Software Engineer. I gained experience of working in this area. My practical experience includes software development, testing, specifications and people management.

As this area complements my studies, I am keen to gain more experience in the field. For this reason, I am looking for a company with a positive ethical stance willing to offer me a placement among their developers and provides opportunity to learn and apply emerging technologies. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team.

Strengths & Skills
